REVEALING THE BURDEN OF SEPSIS

? WHAT IS SEPSIS?

NOT VERY WELL KNOWN

WHILE:

44 million DEATHS (1 OUT OF 5) WORLDWIDE !!

250 000 IN FRANCE

50 million CASES. EVERYONE IS CONCERNED

42% CHILDREN UNDER 5. WOMEN MORE OFTEN

IS IT A DISEASE ??!

IT IS AN "UNKNOWN KILLER":

AN ABNORMAL RESPONSE OF OUR BODY
TO AN INFECTION (VIRUS? BACTERIA?..)

If you survive, it is not the end of the story!
Half of the patients will continue to suffer.

WE NEED RECOGNITION > INVESTMENTS IN RESEARCH

- FROM POLITICS
- FROM THE MEDIA
- FROM THE SOCIETY

FIRST STEPS:

IN FRANCE:

- PI ANNANCES STUDY
- CREATION OF IHU PROMETHEUS FOR INFECTIOUS DISEASES

IN GERMANY:

- LAUNCH OF THE GLOBAL AGENDA FOR SEPSIS AT THE BUNDESTAG

IN SWEDEN:

- CAMPAIGN TO RAISE AWARENESS (MEDIA...)
- PROTOCOLS IN HOSPITALS
- LEARNING THE WORD "SEPSIS"
- DO NOT SCARE PEOPLE

WORLDWIDE:
SEPSIS DAY
SEPTEMBER 13th

IN U.K.:
NURSES' HOTLINE
POST HOSPITAL CARE
PEER SUPPORT

WE CAN SAVE LIVES!

SYMPTOMS ARE MISUNDERSTOOD:

SHIVERING, FEVER,
EXTREME PAIN or DISCOMFORT
PALE or DISCOLOURED SKIN
SLEEPY, CONFUSED
I FEEL LIKE I MIGHT DIE
SHORT OF BREATH

WHAT ABOUT THE
POST-SEPSIS
SYMPTOMS?

TREAT PATIENTS PHYSICALLY AND MENTALLY

CARE FOR
THE FAMILIES

THE COST WILL BE HUGE
"IT HAS TO BE PUBLIC-FUNDED"

USEFUL TOOLS:
ICU DIARY
FOR PATIENTS IN NEED
TO EXPLAIN THE STORY
AND CONNECT PEOPLE

TRANSFORM PAIN INTO ACTION:
BEING ACTIVE,
VOLUNTEERING, RAISING FUNDS

SMALL BIG THINGS
CAN BE DONE
(MESSAGES ON AMBULANCES...)

EDUCATION

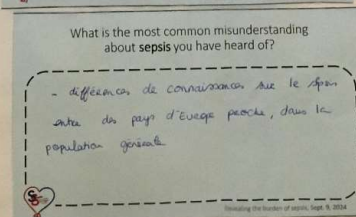

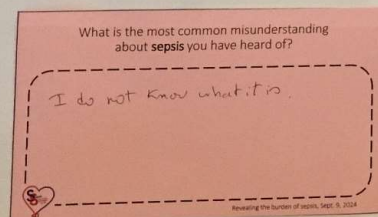

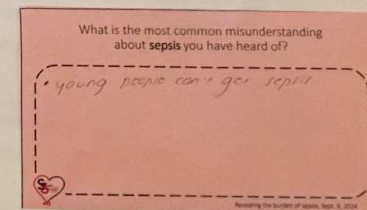

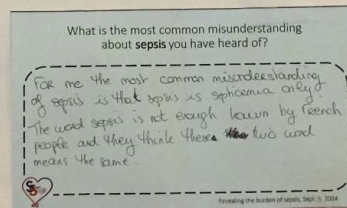

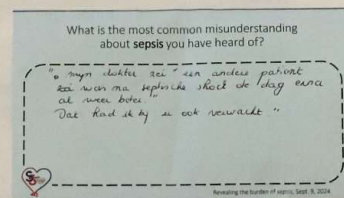

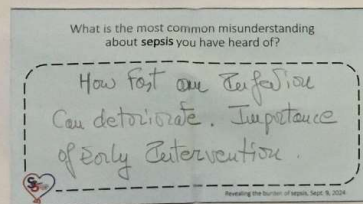

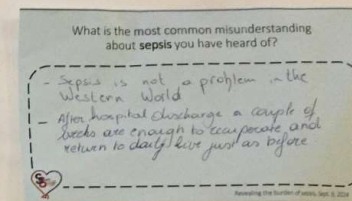

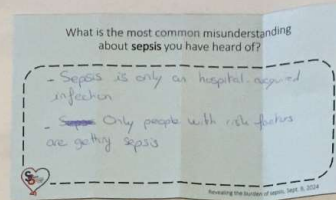

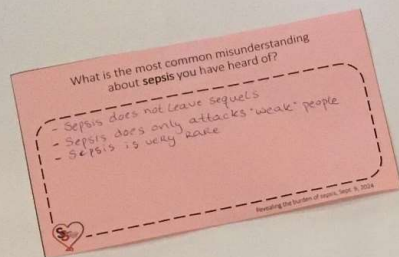

NOT ALL THE PATIENTS
ARE HOSPITALIZED
IN ICU.

CALL
TO
ACTION

(Can you see us ?!?)

What is the most common misunderstanding about sepsis you have heard of?

What is the most common misunderstanding about sepsis you have heard of?

I think that a lot of people don't treat it as serious. It should be treated, it is almost dead like it's swept under the rug.

James
12/04/2024

Remember the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about sepsis you have heard of?

- You don't have sepsis
- You can't get it more than once
- You had it, how get over it
- Don't be so dramatic
- It's because you've taken antibiotics
- Just sleep it out

Remember the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about sepsis you have heard of?

- You can catch sepsis!
SEPSIS DOESN'T LAST IN CARDIAC!
SEPSIS IS A NEW THING!
SEPSIS IS A BACTERIAL INFECTION!

Remember the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about sepsis you have heard of?

- that it's 'just an infection'
- that it just affects vulnerable people
- that sepsis is limited to ICU patients
- that sepsis is only an acute illness
- that post-sepsis problems are rare
- that post-sepsis problems are limited to ICU patients

Remember the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about sepsis you have heard of?

Le sepsis ne concerne que les personnes vulnérables.
la contagion sepsis se divise plus en milieu hospitalier.

Remember the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about sepsis you have heard of?

sepsis to septicaemia

Remember the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about sepsis you have heard of?

What is the most common misunderstanding about **sepsis** you have heard of?

- différences de connaissances sur le sepsis entre des pays d'Europe proche, dans la population générale

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

"mijn dokter zei " een andere patient
zei was na sepsische shock de dag era
al weer beter."
Dat had ik bij u ook verwacht."

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

- that it's 'just an infection'
- that it just affects vulnerable people
- that sepsis is limited to ICU patients
- that sepsis is only an 'acute illness'
- that post-sepsis problems are rare
- that post-sepsis problems are limited to ICU patients

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

- Sepsis is only an hospital-acquired infection
- ~~Sepsis~~ Only people with risk factors are getting sepsis

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

- Sepsis does not leave sequels
- Sepsis does only attacks "weak" people
- Sepsis is very rare

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

- Sepsis is not a problem in the Western World
- After hospital discharge a couple of weeks are enough to recuperate and return to daily life just as before.

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

How fast one's condition can deteriorate. Importance of early intervention.

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

Le sepsis ne concerne que les personnes vulnérables.
La contagion sepsis se déroule plus en milieu hospitalier.

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

- YOU CAN CATCH SEPSIS!
- SEPSIS DOESN'T EXIST IN CROATIA!
- SEPSIS IS A NEW THING!
- SEPSIS IS A NASTY INFECTION!

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

sepsis is septicemia

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

For me the most common misunderstanding of sepsis is that sepsis is septicemia only. The word sepsis is not enough known by French people and they think these ~~two~~ two word means the same.

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

• young people can't get sepsis.

Revealing the burden of sepsis, Sept. 9, 2024

What is the most common misunderstanding about **sepsis** you have heard of?

I think that a lot of people don't treat it as serious it should be treated, it is almost feels like it is swept under the rug
